

Key Features

-  7-stage charger with adjustable output
-  Ability to charge multiple battery chemistries
-  LCD display shows charge progress
-  Overload and reverse connection protection
-  Durable casing
-  Large clamps for easy battery connection
-  Capable of charging battery sizes 50-300Ah and up to 500Ah (float/trickle)

Battery Charge15

BM PRO's BatteryCharge15 is an automatic battery charger with seven charge states designed to increase your battery's life and performance. Adjustable to 5, 10 or 15 Amps and compatible with all 12Volt Lead Acid (AGM, Gel, Calcium, Wet) and LiFePO4 Lithium batteries - the BatteryCharge15 is ideal to service your car, caravan, bike, truck or boat battery charging needs.

Equipped with short-circuit, over-temperature and overload protection, the BatteryCharge15 has a large LCD display with indicators to let you know the charge progress of your battery. The BatteryCharge15 can also be used in power supply mode when not charging your battery.

Specifications

Output	5/10/15 Amps
Input	240V, 50Hz
Battery Size	60 - 800Ah
Battery Type	Lead Acid, LiFePO4
battery Chemistry	AGM, Gel, Calcium or Wet, LiFePO4
Charger Type	Multi-stage
Power Supply Mode	12V
